High end new trend design, longer running board, heavy and stable, streamline design.

Adopt LED dynamic digital,6 windows display all function parameter.

Adopt Germany “Siegling” transmission system , Strengthen thickness of running board for

more comfortable running.

Adopt knot key to open motor cover, easy to maintain.

Safe back step setting improves the safety for middle and high age users.

Both side structure are made of aluminum, which provide wear-resistance, impact-resistance

and lifetime. Also increase the aesthetics and high profile.
